Lily Pools and Water Gardens Within the Reach of All

NOTHING will add so much beauty and charm to your garden as a lily pool. This is the center of interest around which your entire garden scheme should be built. Doubtless, you feel this way too, but have dreaded messing around with concrete. This is no longer necessary.

We will supply you with Rust-Resistant All-Metal Tank which needs only to be sunk into your garden or lawn. You have only to fill the bottom with rich soil and plant your Lilies and other Aquatics.

This Tank is offered in two sizes, either with or without Plant Collections as explained below. Each of the Plants mentioned is described inside this Folder.

Either of these Collections will give complete satisfaction. Ideal for the Penthouse Garden.

Beautify Your Pools and Ponds with Colorful Water Lilies

Water Lilies lead all other plants in popularity for water gardening. The pad-like leaves floating on the water are themselves ornamental. The star-like flowers glisten in the sunshine and glow in the moonlight.

Tropical Water Lilies

In size and profusion of bloom, the Tropicals far surpass the best of the Hardy Water Lilies. They also have wider color range. Our suggestion to the beginner is that he order a Tropical along with his Hardy Water Lilies. There are Day- and Night-Blooming Tropicals.

Yellow

CHROMATELLA (Marliac Yellow)—The canary yellow petals surround stamens of deeper yellow. The foliage is unusually attractive $1.00

Changeable Colors

As the name implies, the Hardy Water Lilies in this group change their colors as the flowers open.
